1987 PENSION WORLD Editorial Index

Each January, *Pension World* compiles an editorial index of the previous year's feature stories, monthly departments and authors. In addition to listing articles alphabetically as they appeared followed by month and page number, titles are cross-referenced according to subject matter. Regular departments in the magazine (i.e., Current Issues in Plan Design, Editorials, Perspective on Investments and Washington Commentary) are listed under the department name and author's. *Pension World* News items are listed under "News." Pension Resources and Software Product News items are listed under those categories. Finally, there is a heading called "Authors" which lists all authors in alphabetical order.

Topic headings include ERISA, Fixed Income Securities, GICs, Investment Manager Profiles, Pension Plan Design, Public Employee Retirement Systems, Real Estate, Insurance, 401(k)s and Tax Reform, among others.

The purpose of the index is to allow the readers of *Pension World* a tool for convenient referencing and research. Any suggestions as to its arrangement in future years are welcome.
